## All Diagnostics

1. Errors and Omissions will search your return for incomplete information, amounts that seem to be too high or too low considering information in the return, and for values you've marked as estimated. Clicking on highlighted form and line descriptions will take you to the locations where the diagnostic warning occurred to allow you to make changes to entries.  
IMPORTANT: A computer program can only analyze a given number of conditions, so even if Errors and Omissions detects no errors, it is still very important for you to review the tax return thoroughly.
2. We recommend you check for any tax product updates before finalizing your client's tax return.
3. The Diagnostics review evaluates this return for required attachments for filing, inconsistent entries, advisory messages regarding program decisions, tax treatment of items not immediately apparent and additional computations that may be required.
4. All fields to which notes have been attached will be displayed. To edit or delete a note, select Add/Edit Note from the Edit menu. Notes may be marked for printing with the filing copy of the return.
5. The List of Overrides shows all the fields you overrode in this return.

The program performs calculations according to IRS or state instructions for standard situations. Overrides can affect these calculations throughout the return.

CAUTION: Use the override feature only in those rare situations where the standard calculations are not appropriate for your client's tax situation.
